Build Powerful Habits for a Positive Mind

Most attempts at positive change fail because we stop at insight and don't build habits.

Sustained change towards a more positive mind requires laying down neural pathways to form new habits through consistent daily practice. That's what our program design empowers you to do.

8-Week Foundation

You get to build a foundation of mental fitness by strengthening three critical mental muscles to shift the balance of power from your Saboteurs (your negative self) to your inner Sage (your positive self).

Meet the Founder and Program Creator

Core Elements of Mental Fitness Include:

Saboteur Interceptor Muscle

Your Saboteurs generate all your negative emotions, including stress, anxiety, self-doubt, anger, avoidance, procrastination, insensitivity or discontent.

Sage Muscle

Your Sage handles challenges with a clear and calm mind, and positive emotions.

Self-Command Muscle

When you are in full command of your mind you can choose to not stress out over what you can't control, push away self-doubts, recover from disappointments immediately, and spend less time in anger, regret, or blame.
